Profile

Full-stack developer with four years professional experience designing and building applications using Angular, .NET, and SQL. Strong experience with React through personal projects, alongside integrating third-party APIs. Proven experience developing small-scale APIs and applications using Python.

Work Experience

- Software Developer**
 - Apteco**
September 2022 to Present
 - Designed and maintained front-end user interfaces supporting visual analytics, data processing, and marketing tools
 - Engineered efficient web architecture using NgRx, RxJs, WebSockets, and third-party libraries
 - Developed .NET APIs by managing controllers, services, and DAOs to support authentication, request handling, and database access
 - Queried, updated, and maintained SQL databases, including data insertions, updates, and schema migrations
 - Implemented Jest-based unit testing for UI components, models, stores, and services
 - Built end-to-end tests with Cypress to verify full-stack functionality across an application
 - Used Git, DevOps pipelines, and Docker within a development workflow, including commit hooks, linting, and pipeline validation
 - Collaborated cross-functionally with key stakeholders to deliver internationally adopted software

Personal Trainer

Derby Arena
2018-2022

Special Constable
Derbyshire Constabulary
2014-2020

Education

freeCodeCamp - JavaScript Algorithms and Data Structures

freeCodeCamp - Responsive Web Design

ALevels - Distinction - Distinction* | GCSEs - 10 - A* - C

Skills

Key Technical Competencies

- Front-end:** Angular, TypeScript, UI / UX design
- Back-end:** .NET 8, C#, REST APIs, SQL
- Testing:** Jest, Cypress, Playwright
- Architecture & Design:** State management, modular libraries, data structures
- Development tools:** GitHub Copilot, Claude, Codex, Sketch

Development & Delivery

- Git version control
- Azure DevOps pipelines
- Code reviews and quality assurance
- Debugging and performance optimisation

Key soft skills

- Strong problem solving and analytical capability with highly organised proactive approach
- Excellent communicator, proven ability to collaborate effectively cross-functionally

◆ Technology Proficiency

Front-End - Angular, CSS, SASS, Tailwind CSS, TypeScript, RxJS, NgRx, WebSockets, Nx, ESLint, Material

Back-End - .NET 8, C#, Microsoft SQL Server, PostgreSQL, Python

Testing - Jest, Playwright, Cypress, Chrome DevTools, Postman

Development Tools - Visual Studio Code, Visual Studio, Git, Azure DevOps, OpenAI, Claude

◆ Personal Software Projects

- **Spreche Deutsch**

Educational language-learning application built with Next.js, Python, and PostgreSQL

- **Strava Dashboard**

Data-driven dashboard visualising exercise metrics using Next.js, Tailwind CSS, and Strava API

- **Can I Calorie**

Application for calculating caloric balance using Angular, RxJS, and NgRx

- **Portfolio Website**

Personal portfolio developed with Next.js, Tailwind CSS, and Contentful CMS

- **Handcrafted by Barbara Ruth**

Marketing website built using GatsbyJS, GraphQL, Tailwind CSS, and Contentful CMS

- **WW2 European Map**

Interactive historical mapping application created with HTML, SASS, JavaScript, and Webpack

◆ Other skills and personal interests

Full clean driving licence | Ultramarathon runner who enjoys long-distance running and hiking, with a strong interest in travel, culture, and learning German.
